

The following article describes the ways to uninstall the C-Monitor Linux client from a computer.

There are two possible ways of the uninstallation:

## 1. Uninstall through C-Monitor by a console command

The Linux version of C-Monitor is focused primarily on control from CM server. For this reason, and also for the sake of simplicity, the amount of commands is minimized.

Daemon, or the service *cmonitor* runs as a process immediately after OS start. It can be controlled via another program, *cmonitor-ctrl*, which communicates with the daemon.

### CMonitor is uninstalled by the command

`cmonitor-uninstall`

**Complete uninstall, along with the license, configuration files and logs, is done by the command**

`cmonitor-uninstall-purge`

## 2. Uninstall through CM portal

Uninstallation through CM portal is carried out at *Admin zone -> Main menu -> Computers*, find concrete computer(s) through the upper filter, select those on which you want to uninstall C-Monitor and press the button *Uninstall C-Monitor from selected*, as displayed on the following image. The uninstallation will then run automatically.

The screenshot shows the C-Monitor CM portal interface. The top navigation bar includes 'Admin zóna', 'Prehľadanie a Vyhodnotenie', 'Customer Desk', and 'Online 10 Communicator'. The sidebar on the left contains a 'Hlavné menu' section with a 'Počítače' button highlighted in a red box. The main content area is titled 'Počítače' and features a search bar with fields for 'Spoločnosť', 'Počítač & Umiestnenie', 'Používateľ', and 'Operátor'. Below the search bar is a table of computers. The first row of the table is selected, indicated by a red box around the 'X' checkbox. A red arrow points to the 'Odinštalovať C-Monitor z označených' button, which is also highlighted with a red box. The table columns include: X, Id, CM-ID počítača, Meno počítača v sieti, Umiestnenie počítača, Používateľ, Spoločnosť, Aktuálny stav, Registrácia počítača v CM, Licencia CM, Posl. odoslaný email do CM, Posl. online spojenie s CM, and buttons for 'Prehľad' and 'Editovať'.
