

Offers a detailed list of transfers through your selected ports. Using the filter on right side of the window, choose the required parameters such as network, which you're monitoring, time interval, ports, type of graph, and select show in table or graph.

List of ports to data transfers is located on several places, one of them is the section breakdown of [data transfers according to IP addresses](#) [1].

The screenshot shows the 'Detaily prenosu PC' window in the Customer Monitor application. The window displays a table of data transfers categorized by IP address. The table has columns for 'IP adresa', 'Total', 'Download', 'Upload', and 'Port #: Download/Upload'. The data is filtered for the time interval '04.09.2012 12:51:03 - 06.09.2012 13:21:03'. A red box highlights the 'Detaily prenosu PC' tab, another red box highlights the date range selector, and a third red box highlights the 'Možnosť exportu do excelu' button. The table shows various IP addresses and their corresponding data transfer statistics.

The ports are next displayed in the section breakdown of [data transfers according to applications](#) [2].

The screenshot shows the 'Detaily prenosu PC' window in the Customer Monitor application, displaying data transfers categorized by application. The window displays a table with columns for 'Proces', 'Total', 'Download', 'Upload', and 'Port #: Download/Upload'. The data is filtered for the time interval '03.09.2012 14:15:37 - 06.09.2012 14:45:37'. A red box highlights the 'Detaily prenosu PC' tab, another red box highlights the date range selector, and a third red box highlights the 'Možnosť exportu do excelu' button. The table shows various processes like 'firefox.exe', 'chrome.exe', and 'msn.exe' and their corresponding data transfer statistics.
